BNC　Digital-RU75　0.5m

AWARD
アクセサリー銘機賞
2014

Audio Replas has focused on manufacturing precision to improve digital transmission. As a result, Digital-RU75 perfectly meets the digital cable standard used in space and military development. The connectors are ruthenium-plated. This eliminates jitter at the point of contact. Digital-RU75 can transmit accurate information without energy loss.

SPECIFICATIONS

- Cable impedance: 75ohm +-2

- Cable diameter: 3.5mm

- Outer shield: Low dielectric fluororesin

- Conductor: High-definition silver coated high purity copper

- Shield: Double shield

- Connector: ruthenium-plated BNC

- Made in Japan
